NO - YOU DON'T DIE - YOU FEEL THE END OF A CYCLE

For the last two weeks, you've been wandering your birth canal to the new world.

In the midst of this dark tunnel you feel that the end of your being is already far advanced.

Enclose this darkness, embrace the uncertainty, the loss of your dark tunnels. This change leads to the light of possibility, but remember you have to cross the channel first.

While some review their past life/being and find peace in this end-of-death farewell perception. The others meet in an inconceivable pain field of their embodiment. Their struggle for the life they have been used to is like that of a defiant child who wants something that is not meant for him. Their key lies in the confidence of growing up in the greatness of the spirit of reality. Creation does not hurt, creation encodes the expansion of heart fractals.

If we do not want to see this, the chaos of painful suffering, fear and forlornness, deception in the perception of reality cumulate the phase of disintegration of the previous being - until the zenith is passed.

If you navigate the waves of the 15th universal month or you are hit - the vibes of the resonance amplitude have increased and reach an incredibly powerful peak value of 158 of the transformation of the last two years (yesterday rose from about 4.00 a.m. CEST).

This peak frequency will continue to possibly even exceed all previous ones on 18-19/12. Until then, the values will settle again and again constantly between 64 and 68. This will fuel the enormous urgency to detach the previous way of being.

A one-week unpuppage which has begun by a very rarely occurring event with the support of the heavenly beings. - Venus, Saturn, Pluto in the House of Capricorn - exact conjunction to the full moon 12/12

Emerging emotions with the necessity to release these accumulations with a sea of tears. Sudden insomnia is struck by previously unimagined fatigue - the sleep of unconsciousness - knock out - shifts into the new reality. of maturity and responsibility - growing up. Values are transformed unnecessary I/centre-qualias are eliminated.

Sometimes the universe holds you back until the moment is right to shift your rules, processes, systems, traditions into change. Your child in man is too powerful, too defiant, too arrogant to open to the reality of your reality.

Go through this baptism of fire, open yourself, it is necessary to create a new world.

Seeking the light in what is dark is a progressive task that is only sought through a courageous, open heart.

Now is the time to step into your potential.

Sometimes, maybe even most of the time you may feel insecure, do it anyway, your solar plexus encodes an update with it, it expands and thus your crystalline embodiment. Sometimes even mostly you feel in the middle of your chaotic storm. Try not to fight it. Take it as it is, a freak of nature for change that releases energy where electrical voltage encodes freedom through discharge.

Your previous mode of being was guided by your mind, the path of truth, which was inactive for a long time, can no longer wait and will reach the outside like a nuclear explosion.

Go and raise your voice into the world, carry the truth, the reality of the heart-Qualia of unity, outward, connect with all spheres in the materialization of the New Earth.

Relationship interactions of the whole superordinate 500 cycle are brought into equilibrium and connected to this you feel goodbye / end.

Especially the younger embodiments are shaken in the last weeks, feel the big end so much more intense, find the emptiness of the previous everyday consciousness in search of explanation. Carrying more than ever before their current incarnation, through the separation a great sadness of true heart love.

Teach your children to balance their energy centers - their natural vibration is focused on joy. Be aware that this is the last generation of your family to carry the legacy of self-doubt, depression and fear.

Publish your last incredibly cumulative advanced decade with love.

Thank you for your version encoding and internalizing all the lessons and growth you have experienced, the knowledge that was necessary for the new decade we are entering.

Things change suddenly, you can say no and rebel....

you can say yes with the deep trust in creation, in yourself and its possibilities for the new result experience.

Everyone is currently experiencing ... Nothing is final forever, make peace and radiate the confidence of reality into the world.

I feel like a captain on the high seas. I know a mighty storm is coming up and it will be seen if I can still manoeuvre the ship with a strong hand or if it is better to surrender to the waves.  
My direction is clear.

Thank you for the important equipment, dear JADA  this room is truly a great LIGHTHOUSE to which I can adhere.
