Today and tomorrow, an extraordinary star-coding upgrade, with a plasma wave will arrive here. After the impressive timeline dissolution and the jump into the clear crystalline water into the new eon, the new decade, it begins after intensive purification, the cycle, the liberation.

\*\*\*No time to rest, great things are unpacked, you are in the eye of the storm, your light assists you\*\*\*

A lot of you will experience another initiation. I know you're wondering what that means. Now on our journey, when we have reached a certain point in life completely unconsciously, we experience our first initiation, you consciously turn to your awakening. The first shift of your being happens. In this phase the creation directs you to several different areas of interest that resonate within you.

Your training begins with the search for answers to your emerging questions. You feel this world is not your world, you do not belong here.

In the beginning it is most likely the art of teaching all energy cycles that influence you in your everyday life. Chakras, meridians, light pathways, the fascinating discovery of the nature of photosynthesis, the process of genesis.

After a relatively short time you will be quite adept at this step, maybe this learning module will even change your professional career. In the next module you will develop a natural curiosity for everything ethereal, extraterrestrial.

Your connection to the universe is strengthened here.

For most people, the first thing that happens is curiosity about other cultures, the art of magic. After that a close connection to the realms of the angels happens, they are closest to Gaia's life, so this attunement works very easily.

EE Michael is therefore the most intensely perceptible lecturer for many as guardian of the planet, followed by Sandalphon, Chamuel, Haniel. Less than Metatron claims. Probably, very likely, you are in the process of finally discarding all religious belief structures at this stage - a condensed stretching of the heart begins.

You begin to move beyond your previous elementary level, not only that your body shows unexplainable symptoms and sensitivities in this phase shift, but also different dimensions are shown to you in flashes of light in the colors blue and white, a little later formations of gold (language) your search for traces begins. into the vastness of the cosmos, solar system, galaxies, Pleiades, Sirius, Andromeda Orion, Wega/Leya...they will attract your attention. It is a path on which you will decipher your last extraterrestrial stay, your tribal puzzle, and inside your embodiment the sure knowledge will be ignited when you have found it.

During these phases you often felt powerless, full of fear, pain and doubting yourself and your perception/sensation.

The stations are surely comprehensible in your log book.

If you have been able to take up all your teaching contents, you have succeeded in the last few months in learning to read cosmic information energy, body energy, but also collective social energy, such as nature and geo energy, their common connection and interaction, the language of all life.

Each of these teaching stays on your path has taken you one step further out of the matrix, has led you to the source of all creation. Her teaching is always present, all energy is information of her self (subatomic - elemental - fire, air, water, earth).

Everything in your search leads you to only one point, in recognizing/peeling out you are the Creation Self.

Now you are at the point where your multidimensionality enters the elemental plane.

There is an enormous fusion of consciousness taking place, a 1000 year incarnation training is now completed.

2018 was for most a strenuous divergent bodily process, but 2019 was the sacred path in the elemental realization of the Higher Self, the reality of the I AM, paved with interaction issues, separations, relocations, and especially fomented collective points of friction, which in turn found their expression in personal embodiment. A really big shift towards how we can all align our behaviors, interactions with the highest intentions and energies of creation.

A few days ago we have already experienced, now the splitting begins. Those who are unconsciously but in the heart, interacting with heart mind, have now reached the point of experiencing their revolution

of the soul. Those who cling to their EGO, accumulate to narcissism, their path will not be easy, but necessarily painful, until their dense mist clears, until they learn to understand unity and interaction, heart life, expression and language of the cosmos.

For most, the fourth initiation is initiated. Initiations are always done when you are ready for the next step, without expectation or judgement.

Epigenesis, Evolutionary new challenges are a happy zero point of your journey of experience

A significant fulcrum in the life of the elemental embodiment of the solar system, Gaia and fauna, flora and ultimately yours.

The current alternation of the Earth initiation, the upliftment of its energy and that of its embodied beings, you could most likely perceive as fire (sacral chakra) or in your dreams where you could perceive beings, figures, people in large waiting halls in joyful anticipation - they are the ones who already are.

It is important, especially now that you are still moving like a newborn, vulnerable in this new world, to focus on your wholeness, on your healing, not on the shadows that infiltrate and accumulate your human being. It is important to let emotions have their space, to experience them consciously to ensure their release. It is important to continue to seek all that you have never found in a human being. It is important to force water and movement to bring momentum to your cell formation. It is important to give yourself the love that you were denied to end dramas, it is important to let go of people to strengthen, it is important to recognize the interweaving so that a new level of light-web membrane dissolves and merges into one, it is important to accept your light-filled power.

\*\*\*USE YOUR POWER FOR YOUR EMPOWERMENT CONNECTED TO ALL THAT IS

J.A.
